

## Letters to the Editor

- Now that I am on release from St. Helens, I thought that I would try to get organised and answer some letters, etc. Then a beautiful thought struck me and hence these few words. I would like to thank all those who sent their best wishes, Masses and prayers for my speedy recovery after my ticker job. I would also like to record my sincere gratitude to Bro. Michael and Community of St. Helens, and to Maureen and her staff, for their acceptance of this bad patient and for the care they took of me during my fairly long stay. I am sure that I would not have made such progress if it had not been for their professional expertise. In fact, I find it strange now, having to do most things for myself, after a few months of being waited on hand and foot.
- Having been mentioned twice in consecutive issues may I too wish Brother Pat a very peaceful retirement after his labours in Nigeria. I remember Brother Fred telling us when we arrived that having come to Africa we would all certainly return. How right he was! I spent 27 years in Kenya and I saw Desmond in Nairobi when he did a couple of contracts there. I keep up with a lot of the happenings of the Church in Nigeria because a Father Sylvester Omoke comes to our Parish here in Canterbury each summer.

*Chris Bull*

Keep up the good work. (I love saying that when I have no work myself!)

*Bro. Philip*
